

Questionnaire for Applications with AMS Oxygen Analysers

Company: _____
Address: _____
Person in Charge: _____
Position: _____
Tel., Fax, E-Mail: _____
Date: _____

Description of the Process:

Purpose of the measurement: Monitoring / Safety Process control ATEX Requirement

Requirements on the Sensor:
Temperature: _____ Δp against ambient: _____
Gas composition: _____
Units: Vol. % ppm
Heavy metals: _____
Combustibles in the Gas: _____
Dust content: _____ Amount: _____

Are results of earlier measurements available? Yes No
If yes, please state the results?

Requirements on the Electronics:
Installation: fixed Installation portable solution
Mounting position: horizontal upright
Wall thickness: _____ mm (for fixed installation)
Temperature at the point of measurement (Ambient temperatur): _____ °C
Required protection: IP _____

Version: Questionnaire PPM% V01.2011-07
